# Our Mission

At American Adventure Park Systems, we approach every new project with an operational mindset. Through our years of experience installing, training, and operating, our world class staff has developed a deep passion for the industry and holds your operational needs as our highest priority. We believe participant safety is of the highest importance and approach each new project with the end user's safety and experience in mind. Our courses are designed to work with the natural environment, creating a stunning course to showcase the beauty of your area while minimizing impact. Each of our projects are custom designed to meet the individual needs, theme, and scope of our clients. Your satisfaction is extremely important to us, and each project, from individual zip lines to aerial adventure parks that are larger than life, receives our undivided attention.

American Adventure Park Systems is a Professional Vendor Member of ACCT and a Product Producing Voting Member of ASTM. AAPS pioneered the zip lining industry with the first zip line canopy tour in North America and holds the Guinness World Records for the longest zip line course and tallest free standing artificial rock wall at our headquarters, Historic Banning Mills.

# Zip Line Canopy Tours

**AAPS designs and installs customized zip line canopy tours to best fit the natural topography of your location. Our courses are designed to work with the environment, and are installed with the goal of minimizing our impact.**

**Zip Line Tours can be designed to best suit your location with bridges and zip lines of virtually any length, including super zip lines over 2,500 feet!**

**Let our professional staff work with your company to design your perfect adventure experience.**

**Zip line tours are an experiential activity that takes people outside their comfort zone and gives a brand new perspective to the outdoors and natural scenery of an area.**

**Zip line tours provide a unique opportunity to guests in that we are able to share an experience in the outdoors in a new, fun, and creative way.**

**At AAPS we design our courses with the end users experience and personal safety in mind. We are also extremely conscious of our impact on the environment around us and recognize our responsibility to protect the environment and work with it in creating an exceptional outdoor experience.**

**Our installing practices meet or exceed all industry safety standards and are designed for optimal course flow, leading to quick return on investment.**

# Aerial Adventures

**Custom designed aerial adventure courses can be built to fit any footprint at any location from simple pole structures to multi adventure tier mega structures.**

**Course designs can range from family friendly to high challenge initiatives all in one location. Courses can be designed with limitless customization to ensure your courses challenge level matches the needs of your participants.**

**Courses can be constructed using trees, poles, aluminum beams, or a combination to best fit the terrain and environment for your location.**

**Once your course is complete and ready for operation, our staff will train yours on safety, inspection, and best practices for your course to ensure you and your team are ready to hit the ground running.**

# Via Ferrata

**Imagine navigating a rocky wall, mountain, boulder field, cliff face, or even artificial structures. Via Ferrata is an exciting and unique way of navigating dynamic and picturesque landscapes!**

**Via Ferrata is a relatively new adventure activity to the United States and a great way to draw in adventurous participants to your location!**

**At AAPS we value utilizing natural landscapes and design our courses to highlight the beauty of each destination.**

**Via Ferrata is now safer and easier than ever thanks to our continuous closed belay system!**

**Contact us to find out how easy adding new Via Ferrata adventures can be!**

# *Vertical Trek Innovations*

A person wearing a white helmet and a yellow shirt is working on a zip line system. They are holding a metal component of the system. The background shows other parts of the system and a person in an orange shirt.

**SIMPLE**  
**STRONG**  
**COST EFFECTIVE**  
**VERSATILE**  
**SAFER**

**Vertical Trek Innovations of North America is on the cutting edge of continuous closed belay systems for the aerial adventure park and zip line industry. With VTI your entire course can be continuously connected, keeping guests safer than ever before on zip line tours, aerial challenge courses, climbing walls, free falls, and suspension bridges.**

**Vertical Trek Innovations has a unique, patented system enabling adventure seekers to progress without fear of accidental disconnects. This is unlike any currently available closed belay system on the market. Over four million people a year all over the world use our system! With Vertical Trek, safety is our top priority.**

**Have an existing course? Looking for a newer and safer belay system to keep your guests safe? Looking to build a new course and need the safest belay system on the market? Don't wait for an accident to occur, set your course up to be the safest it can be.**

**Our professionals make retrofitting your course an quick and simple process and will have you resting easy knowing the potential for accidental disconnects on your course are a thing of the past.**

# The Adventure Matrix

**Give your location the ultimate wow factor with a super structure as the focal point of your adventure destination! Custom designed Adventure Matrix structures can fit any foot print at any location!**

**The Adventure Matrix structure can be built to almost any dimensions while its material keeps center of gravity low and its strength incredibly high!**

**Our professional staff will work with you to design the perfect attraction for your location and budget while our technicians will ensure install time has you ready for the next big season!**

**Curb Appeal**

**Appealing To All Ages**

**Unmatched Participant Safety**

**Compact Adventures**

**Customized Design**

**Easily Customizable and Expandable**

**Fast Install and Simple Maintenance**

**Engineered to withstand CAT 5 Hurricane**

**Our professional design team wants to create a structure you and your guests will love, with unique challenge elements to meet any level of difficulty!**

**Our structures can be customized to match the theme of your park with added design elements, shade structures, lighting, and observation platforms.**

**We design our structures to be as functional as they are fun with natural course exits and optimal flow in mind to reduce participant wait times and provide easy access in a case where course extraction may be necessary.**

**Minimal staffing needs and elimination of potential bottlenecks leads to quick return on investment!**

# The Mini Matrix

Our 7 pole Adventure Matrix is perfect for locations needing to utilize a smaller footprint with the ability to explore up to 26 elements on the three level design. The top of the matrix can be outfitted with an observation deck and shade sails for increased usability! This structure can easily be integrated into indoor or outdoor locations!

Additional levels can be added upfront or in future phases for even more fun!

	18	26
	80	100
	1-2	2-3
	1	1.5-2

# The Mondo Matrix

Our 10 pole Adventure Matrix is perfect for locations looking to utilize a rectangular footprint with the ability to traverse up to 32 elements on the three level design. The top of the matrix can be outfitted with an observation deck and shade sails for increased usability! This is a perfect mid-sized structure which can be easily expanded over time!

Additional levels can be added upfront or in future phases for even more fun!

	21	32
	110	130
	2-3	3-4
	1.5-2	2-2.5

# The Mighty Matrix

Our 12 pole Adventure Matrix is perfect for locations looking to utilize a larger rectangular footprint with the ability to traverse up to 41 elements on the three level design. The top of the matrix can be outfitted with an observation deck and shade sails for increased usability! This is a perfect mid-sized structure which can be easily expanded over time!

Additional levels can be added upfront or in future phases for even more fun!

27	41

2-3	3-4
1.5-2	2-3

# The Mega Matrix

Our larger 12 pole Adventure Matrix squeezes hours of fun into a compact footprint that's perfect for creating that wow factor with up to 54 elements to navigate! The top of the matrix can be outfitted with an observation deck and shade sails for increased usability! This larger scale structure can be easily expanded over time for massive fun!

Additional levels can be added upfront or in future phases for even more fun!

41	54
175	200
3-4	4-5
2-3	3-4

# Professional Training

As owners and operators of the first zip line canopy tour in North America and the largest in the world verified by Guinness World Records, we take great pride in our expertise of the zip line and aerial adventure park industry. For over 20 years we've been building, operating, training, and inspecting zip line courses and professionals!

The guides at Historic Banning Mills and each of our Screaming Eagle Adventures locations are trained to meet and exceed industry standards. Our professional third party training programs are designed to prepare your staff for a wide array of situations they may encounter.

Each staff member in our classes receives hands on training on your course with time to practice and perfect safety techniques.

Professional trainings are customized to meet your needs and can include:

- Aerial Adventures
- Zip Line Canopy Tours
- High Ropes Rescue
- Wilderness First Aid & CPR
- Work Safely at Height
- And More!

# Professional Inspection

All of our professional inspectors have years of experience both guiding and installing zip line and aerial adventure tours. Our experience in each aspect of the zip line industry means we approach every inspection from a number of different viewpoints. Our team not only ensures your course is safe and meets the expectations of ACCT / ANSI / and/or ASTM, but also approach each aspect of your course from an operational mindset to help ensure you and your company can maximize your ROI, minimize unnecessary course expenses, and operate as safely and efficiently as possible. At AAPS we strive to push the zip line aerial adventure industry to be as safe and as fun as possible for our guests and yours and take great pride in the quality of work we provide, and the lasting relationships we build with our clients.

Whatever your course has to offer, our professional technicians can inspect your course in its entirety to ensure all standards are met, and your operations are ready for the next season.

We can also provide engineered stamps!

## Inspection services include

- Challenge Courses
- Suspension Bridges
- Free Falls
- Guy Wires
- Support Cables
- Metal Structures
- Pole Structures
- Zip Lines
- Adventure Towers
- Climbing Walls
- Operating Manuals
- And More!

# Jump Towers

Looking to add new activities to your list of adventures?

Free falls are an adrenaline seekers favorite activity! Customized jumping platforms can be added onto any existing structure or integrated into a new tower or existing course for an added experience your guests will love!

## FIND THE FREE FALL FOR YOU

Head Rush Technologies developed a family of free fall devices to create exciting experiences for kids and thrill seekers alike. The QUICKFLIGHT and FLIGHTLINE offer a wide range of options for any attraction wanting to add that "wow" factor.

# Adventure Towers

**Towers can be for more than just zip lines! Add climbing and rappelling walls, free falls, and multiple access points to your course from one central adventure structure! Adventure Towers can act as central hubs to all of your activities!**

**Our professionals can create a tower to best suit your needs and create a focal point for your adventure operations.**

**Towers are great for connecting multi-functional tour options and can be built to match the theme or existing architecture of your location!**

## *Super Zip Lines*

**American Adventure Park Systems has a wealth of experience with high speed zip lines and super zip lines stretching over thousands of feet! Super zip lines are a great capstone experience on any zip line canopy tour! At our headquarters, we have 3 half mile long zip lines and one that's over 3,400 feet long!**

# Team Building

Looking for group activities to foster cooperation, problem solving, communication, leadership, goal setting, trust, confidence, and more?

We design, build, train, and facilitate team building - low, high, and orienteering initiatives?

Team building blends perfectly with zip line canopy tours and aerial challenge courses and can be an easily added offering to your location to draw in large groups!

Challenges can be added over time to keep your team building programs new and draw in repeat participants!

Team building courses can help individuals in the team accomplish what seems impossible and give them the courage to go beyond what they thought they could do. It emphasizes that each individual offers something to make the team productive.

Our GPS team building courses can be spread out around your property and marked with handheld GPS devices to create an added challenge for participants where they must navigate to, and solve each unique challenge.

No matter the size of your location, AAPS can find unique ways to incorporate team building challenges into your current operations.

## *Suspension Bridges*

**Create a dynamic canopy tour experience by incorporating suspension bridges and unique aerial elements. Suspension bridges can be designed as stand alone structures or as part of a larger course. Suspension bridges can be built for use with or without personal protective equipment and can range from short connectors between platforms to spans hundreds of feet long!**

# Tree Houses

**Looking for unique accommodations to draw visitors to your location?**

**Tree houses create an exciting alternative to standard rooms for unique lodging packages! Our team can create custom designed tree houses to fit the theme of your location.**

# Tools & Hardware

Have the tools and hardware you might need on hand to ensure your operations stay open and functional year round!

American Adventure Park Systems are distributors for a wide variety of products, making AAPS your one-stop-shop for everything aerial adventure related!

# Personal Protective Equipment

Need protective equipment for your course? Our staff can recommend and outfit your course and staff with the best in the industry! Whether you are looking for more affordable options or high end, state of the art equipment, we can connect you with the gear that is right for you and your operations.

Harnesses, Helmets, Ropes, Rescue Kits, Lanyards, Connectors, Belay Systems
